EXCELLENCE CENTRE

New Autogas Resource launched Online

To enable local action our Global Autogas Industry Network (GAIN) has launched a Center of Excellence for equipment manufacturers, retrofitters, and other major autogas players. This online resource includes general information, specific facts & figures, as well as company contacts and will be updated three times per year.

AUTOGAS UPDATES

More Automakers deliver more Choice

The 23rd edition of the successful GAIN publication has just been published.

Main focus is on the increasing number of vehicle manufacturers worldwide introducing autogas options in their product line – to meet growing customer demand for cleaner vehicles and to take advantage of consumer trends towards lower-priced autogas fuel.

The big interview asked Chevrolet's Raymond Riou about his company's autogas plans in France and Europe.

See you in Cape Town, South Africa!

The WLPGA is currently preparing for the 20th World LP Gas Forum which will be held in the International Convention Centre of Cape Town, South Africa, from 24th to 26th October 2007.

"LP Gas – Fueling Life" is the theme of this year's event which conference will cover burning issues like global supply and demand outlook, regional developments, market segment analysis, as well as good practices for two days, and dedicate a full third day to LP Gas for African development.
