

### LP Gas - A Secure Choice in Light of Recent Gas Crisis in Europe

The recent Ukraine-Russia natural gas row, which cut off supplies to many parts of the European Union for more than two weeks, raises questions about the reliability of Europe's present supply lines and its energy portfolio. "LP Gas is a clean, flexible and immediately available energy and should be part of this vision" - says AEGPL (European LP Gas Association)

### WPLGA attends the United Nations Climate Change Conference in Poznan, Poland - COP 14

WPLGA reports: Over eleven thousand participants attended the Poznan meetings from 1st - 12th December 2008, which both advanced international cooperation on a future climate change regime and brought progress on key issues. WPLGA also played a role in the Poznan Business Day organized by the World Business Council for Sustainable Development (WBCSD) and the International Chamber of Commerce (ICC) in close cooperation with the UNFCCC. The Poznan Business Day brought together close to 200 decision-makers from companies, governments, intergovernmental and non-governmental organizations to discuss perspectives for a post-2012 climate agreement.
